EXPLANATORY NOTES

This bill amends the Architects Act primarily to revise the field of practice of members of the Ordre des architectes. Criteria respecting the characteristics of the building when the work is completed, including the total gross area and the number of storeys, are substituted for a financial standard and a list of public buildings.

Under the bill, the Bureau of the Order is required to make a regulation to determine, among the acts that only an architect can perform, those which may be performed by classes of persons other than architects.

Lastly, the bill specifies that in addition to a person who uses plans and specifications not in conformity with the Building Act, a person who allows such plans and specifications to be used is guilty of an offence.

LEGISLATION AMENDED BY THIS BILL :

- Architects Act (R.S.Q., chapter A-21);
- Public Buildings Safety Act (R.S.Q., chapter S-3).
