EXPLANATORY NOTES

The purpose of this Act is to improve access to the educational childcare services network and complete its development.

To that end, the Act reinforces children's right to receive quality personalized educational childcare services by introducing the obligation for the Minister of Families to issue an invitation to submit a project for the development of subsidized educational childcare services when the Minister finds that the supply of such services in a given territory does not meet the demand. The Act specifies that the right to receive educational childcare services applies from a child's birth and indicates when that right expires, on the basis of the child's age and school attendance.

In addition, the Act amends the mechanism for assessing educational childcare service needs to enable the Minister to determine the childcare services supply necessary to meet the demand for such services in the various territories the Minister determines and to establish priorities specific to those territories. For those purposes, the Act sets out a process for consulting each of the regional advisory committees it establishes and defines the mandate of those committees.

Furthermore, the Act amends the process whereby the Minister assigns new subsidized childcare spaces. It thus provides that, when the Minister intends to assign such spaces, the Minister is to issue an invitation to categories of permit applicants or permit holders to submit a project, which invitation is to be first addressed to childcare centre permit applicants or permit holders. The invitation may specify the participation of the Minister in the financing and planning of the construction project as well as that of any person designated by the Minister, in particular in the planning, management or control of the development or construction project or in the supply of the facility.

The Act also introduces the possibility for a childcare centre or day care centre permit holder that has undertaken certain steps to acquire a facility to be authorized, on certain conditions, to provide childcare in a temporary facility.

Furthemore, the Act introduces a mechanism allowing permit holders for childcare centres or day care centres delivering subsidized childcare to provide childcare to a number of children that is higher than the number stated on their permit during a period in which arrivals and departures overlap, when providing childcare to two groups of children successively.

In addition, the Act increases the current limits on the number of children to whom childcare may be provided in a facility, and on the maximum number of subsidized childcare spaces allowed per person or related persons holding two or more childcare permits. The Act abolishes the limit on the number of facilities and subsidized childcare spaces that may be developed by childcare centres.

The Act repeals the provisions concerning childcare provided in private residences for which recognition by an accredited home educational childcare coordinating office is not required, and introduces new exceptions to the obligation to hold such recognition or a permit in order to provide such services to children for a contribution. Therefore, the Act allows a natural person, among others, to look after up to two children or to look after only children who ordinarily live together, and also allows certain types of occasional childcare.

The Act also introduces measures enabling the Minister to act, in certain circumstances, including to maintain the childcare services provided by a permit holder that ceases to operate or that intends to do so.

The Act modifies the rules regarding the single window for access to educational childcare services. More specifically, it provides that, in order to be allowed to receive such services, a child must be registered with the single window according to the terms and conditions prescribed by regulation. Such a regulation may provide for assigning one or more ranks to a child with a view to his or her admission as well as the requirements, criteria and priorities for such admission, including to give priority to children living in precarious socio-economic contexts.

As concerns home childcare and the rules governing it, the Act introduces the possibility for the Minister to modify the accreditation of a home educational childcare coordinating office in order to increase or decrease the number of subsidized childcare spaces indicated in the accreditation. It also provides that the Minister may issue instructions to ensure the coherence of the coordinating offices' actions and practices, and introduces a process to establish the level

of satisfaction of home educational childcare providers with those practices. Furthermore, the Act increases to five years the term of the recognition of a person recognized as a home educational childcare provider as well as the term of the accreditation of the coordinating offices, and provides that an additional function of those offices is to conduct prospecting in the territory assigned to them in order to find and guide persons who could be interested in becoming home educational childcare providers. The Act allows a person whose application for recognition has been refused to bring proceedings before the Administrative Tribunal of Québec.

In addition, the Act introduces special rules applicable to Aboriginal persons, including allowing the Government to enter into an agreement with an Aboriginal nation or community on any matter within the scope of the Educational Childcare Act or the regulations in order to take Aboriginal realities into account; such an agreement is to have precedence over that Act and the regulations.

Lastly, to ensure its implementation, the Act contains various measures, including penal and regulatory measures, as well as transitional and consequential provisions.

LEGISLATION AMENDED BY THIS ACT:

- Educational Childcare Act (chapter S-4.1.1).

REGULATIONS AMENDED BY THIS ACT:

- Reduced Contribution Regulation (chapter S-4.1.1, r. 1);
- Educational Childcare Regulation (chapter S-4.1.1, r. 2).

Bill 1

AN ACT TO AMEND THE EDUCATIONAL CHILDCARE ACT TO IMPROVE ACCESS TO THE EDUCATIONAL CHILDCARE SERVICES NETWORK AND COMPLETE ITS DEVELOPMENT

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

EDUCATIONAL CHILDCARE ACT

1. Section 1 of the Educational Childcare Act (chapter S-4.1.1) is amended

(1) by replacing “provided by educational childcare providers covered by this Act” in the first paragraph by “intended for children before their admission to school”;

(2) by replacing the second paragraph by the following paragraph:

“A further object of this Act is to foster the harmonious development of an educational childcare service supply that is sustainable and that takes into account the needs of parents, in order to facilitate the reconciliation of their parental responsibilities with their professional or student responsibilities, as well as their right to choose the educational childcare provider.”

2. Section 2 of the Act is replaced by the following sections:

“**2.** Every child has a right to quality personalized educational childcare services from birth until the child’s admission to preschool or elementary school education or, failing that, until the first day of the school calendar of the school year, within the meaning of the Education Act (chapter I-13.3), following the that in which the child reaches six years of age. A child who ceases to attend school after being admitted also has a right to educational childcare services until the first day of the school calendar of the school year following that in which the child reaches six years of age.

The above right must be exercised taking into account the availability, organization and resources of educational childcare providers. It must also be exercised having regard to the rules set out in this Act relating to access to educational childcare services, including the obligation for those providers to fill their service supply using exclusively the registrations entered in the single window for access to educational childcare services, and the rules relating to subsidies, including those concerning the allocation of subsidized childcare spaces.

The implementation of that right is reinforced by the obligation imposed on the Minister to take the measures referred to in section 93.0.3 so that the educational childcare service supply in each territory meets the demand for such services.

“2.1. Educational childcare centres, day care centres and recognized home educational childcare providers, with the support, in the latter’s case, of home educational childcare coordinating offices that this Act allows to be accredited, are the educational childcare providers that contribute to the fulfilment of the objectives of this Act.

“2.2. Educational childcare providers covered by this Act may provide childcare only to the children referred to in the first paragraph of section 2.”

3. Section 4 of the Act is repealed.

4. Section 5 of the Act is amended

(1) by replacing “include activities” in the introductory clause of the first paragraph by “be”;

(2) by replacing “particularly their emotional, social, moral” in subparagraph 1 by “enabling them to develop, at their own pace, all facets of their person, particularly their emotional, social”;

(3) by replacing “development of a healthy lifestyle, healthy eating habits and behaviour” in the second paragraph by “acquisition of healthy lifestyle habits, healthy eating habits and behaviours”;

(4) by inserting the following paragraph after the second paragraph:

“In applying the program, educational childcare providers must take into account the children’s environment.”

5. Section 5.1 of the Act is amended by adding the following paragraph at the end:

“The Minister publishes the results of the childcare educational quality assessment and improvement process on the Minister’s department’s website within 60 days after they are obtained, and the administrator of the single window for access to educational childcare services does the same on the single window’s website. In addition, educational childcare providers must inform the parents of the children to whom they provide childcare that those results have been published, within 30 days after receipt of a notice to that effect from the Minister.”

6. Section 6 of the Act is replaced by the following section:

“6. No person may, personally or through another, provide or offer to provide childcare services to a child referred to in the first paragraph of section 2, in return for a contribution, unless the person holds a childcare centre or day care centre permit or is a home educational childcare provider recognized by an accredited home educational childcare coordinating office.

The prohibition set out in the first paragraph does not apply to

(1) natural persons who are own-account workers and who, in a private residence where childcare is not already being provided,

(a) look after up to two children; or

(b) look after only children who ordinarily live together;

(2) day camp or vacation camp operators;

(3) non-profit community organizations whose overall mission is financed by a public body within the meaning of the Act respecting Access to documents held by public bodies and the Protection of personal information (chapter A-2.1) and that, incidentally to their main mission, provide occasional childcare in a place other than an educational institution;

(4) non-profit legal persons that, in an educational institution, provide occasional childcare exclusively to children of students attending that institution while the latter are pursuing their studies and where the latter can make themselves available if needed; or

(5) persons who provide occasional childcare to children whose parents are on site and can be reached if needed at one of the following locations:

(a) a health and social services institution;

(b) a commercial establishment;

(c) a fair, an exhibition or a place where a one-time event is held; and

(d) a place where a deliberative assembly is held.”

7. The Act is amended by inserting the following section after section 6:

“6.0.1. For the purposes of the first paragraph of section 6, childcare services offered or provided to a child as a benefit to a parent as an employee or client or as a person attending or frequenting an institution or establishment are deemed to be offered or provided in return for a contribution, even if no monetary consideration is required for those services.”

8. Sections 6.1 and 6.2 of the Act are repealed.

9. Section 8 of the Act is amended

(1) by replacing “a maximum of five” in subparagraph 1 of the first paragraph by “one or more”;

(2) by inserting the following subparagraph after subparagraph 1.1:

“(1.2) undertake to provide childcare only to children referred to in the first paragraph of section 2;”;

(3) by striking out the second paragraph.

10. Section 10 of the Act is amended by replacing the first paragraph by the following paragraph:

“The Minister may, except in the case of a project selected under section 93.0.1, refuse to issue a childcare centre permit given the subsidies available or the relevance of subsidizing a permit applicant for the proposed territory or if the educational childcare service supply necessary to meet the demand for such services, determined under section 11.2, is achieved in the proposed territory.”

11. Section 11 of the Act is amended

(1) by inserting the following subparagraph after subparagraph 1.1 of the first paragraph:

“(1.1.1) the person undertakes to provide childcare only to children referred to in the first paragraph of section 2;”;

(2) by replacing “under section 93, granted the applicant such spaces on the recommendation of the advisory committee concerned” in the second paragraph by “under section 93.0.1, granted the applicant such spaces”;

(3) by inserting “, and of a permit applicant or permit holder who has obtained the authorization referred to in section 16.1 to maintain the provision of childcare services to children who would otherwise not have any” at the end of the second paragraph.

12. Section 11.1 of the Act is amended, in the first paragraph,

(1) by striking out “consults the advisory committee concerned established under section 103.5 and” in the introductory clause;

(2) by replacing “the childcare service needs and priorities for developing such services” in subparagraph 2 by “the necessary educational childcare service supply determined under section 11.2”.

13. Section 11.2 of the Act is replaced by the following section:

“11.2. The Minister assesses, at least once a year and for all of Québec, the educational childcare service needs in each territory the Minister determines, and identifies, if necessary, the priorities for developing such services. For those purposes, the Minister considers, among other factors, the permits already issued, the permit applications and other applications for authorization under section 21 or section 21.1 awaiting a decision, demographic variations, the recognitions granted to home educational childcare providers, the registrations entered in the single window for access to educational childcare services, and how well childcare service needs are already being met.

Subsequently, the Minister consults the regional advisory committee established under section 103.5 that is responsible for the territory concerned. The Minister requests, within the time determined by the Minister, the opinion of the committee on the assessment of needs and on the development priorities identified under the first paragraph.

The committee may then recommend that the Minister consider certain elements, specific to that territory, with respect to the childcare service needs, the development priorities, the allocation of subsidized childcare spaces or the issue of a day care centre permit.

At the conclusion of that exercise, the Minister determines, for each territory, the educational childcare service supply necessary to meet the demand for such services. The Minister then establishes whether the supply meets the demand and makes a projection of those findings for any period determined by the Minister. The Minister may also adjust the development priorities the Minister has identified.

The Minister publishes on the Minister’s department’s website, for the benefit of permit applicants and permit holders, the necessary information on the educational childcare service needs and priorities for developing such services specific to each territory and makes public his or her assessment, the determination made under the fourth paragraph and the opinions and recommendations given by the committees under this section.

When the Minister assesses the childcare service needs and establishes the priorities for developing such services within an Aboriginal community, the Minister consults only the community concerned or, if applicable, the person or body designated by the community to represent it in such matters.

For the purposes of this section, the territories are determined by the Minister in such a way as to ensure, for all of Québec, optimal measurement of educational childcare service needs. The Minister publishes, on the Minister’s department’s website, his or her method for determining territories as well as the territories determined, which must be of at least the same size as the territories of the home educational childcare coordinating offices.”

14. The Act is amended by inserting the following section after section 11.2:

“11.3. Each year, the Minister consults the Minister of Education, Recreation and Sports to ensure consistency between the development of educational childcare services and preschool educational services where those services are intended for children who may use either type of services.”

15. Section 12 of the Act is amended by striking out “, where this number differs from the number referred to in paragraph 3” in paragraph 5.

16. The Act is amended by inserting the following section after section 13:

“13.1. Despite section 13, permit holders for childcare centres or day care centres delivering subsidized childcare may, when providing childcare to two groups of children successively in the same facility, provide childcare to a number of children that is higher than the number stated on the permit during a period in which arrivals and departures overlap, in the cases, on the conditions and without exceeding the duration determined by government regulation.”

17. The Act is amended by inserting the following sections after section 16:

“16.1. The Minister may, in exceptional circumstances and temporarily, where a permit holder ceases operations in one or more facilities or is about to do so, authorize a childcare centre permit applicant or permit holder to maintain the provision of childcare services to the children who would otherwise not have any, at the address of the facility appearing on the permit of the holder ceasing operations or at any other address determined by the Minister.

Where no childcare centre permit applicant or permit holder is able to ensure that services are maintained to the Minister’s satisfaction, the authorization may be granted to a day care permit applicant or permit holder.

Where the Minister authorizes a permit applicant, the Minister issues a temporary permit to the applicant for the purposes of this section.

“16.2. In the cases provided for in section 16.1, the Minister may authorize, for a specified period, a permit holder to provide childcare services according to standards that depart from those established by or under this Act or may exempt the permit holder from the application of certain standards, except a standard established under subparagraph 13 or 13.1 of the first paragraph of section 106.

The Minister establishes the period and applicable standards by issuing a directive.

“16.3. The Minister makes public, on the Minister’s department’s website, the names of the permit applicants or permit holders to whom the Minister has granted an authorization under section 16.1 as well as any directive issued under section 16.2.

“16.4. The Minister may, for the period the Minister determines, authorize a childcare centre permit holder and a person that already holds a day care centre permit to whom subsidized childcare spaces have been allocated and whose project involves work to construct or develop a facility to provide childcare to children in a temporary facility.

Sections 18 to 20 of the Act do not apply to the temporary facility.

The Government establishes, by regulation, the conditions and standards applicable in such circumstances and determines the standards from which the holder is exempt.”

18. Section 21 of the Act is amended by replacing the second paragraph by the following paragraph:

“The Minister may, except in the case of a project selected under section 93.0.1, refuse to grant the authorization given the subsidies available and the relevance of subsidizing a permit holder for the proposed territory or if the educational childcare service supply necessary to meet the demand for such services, determined under section 11.2, is achieved in the proposed territory.”

19. The heading of Division II of Chapter II of the Act is amended by inserting “, MODIFICATION” after “TERM”.

20. Section 24 of the Act is amended

(1) by adding the following paragraph before the first paragraph:

“The Minister may modify a permit where a change is made to one of the elements listed in section 12.”;

(2) by replacing “9 and 11” in the first paragraph by “11 and 40.2”.

21. Section 28 of the Act is amended by striking out “without first complying with section 30” in paragraph 6.

22. Section 30 of the Act is replaced by the following section:

“30. A permit holder must, at least 90 days before ceasing to operate in one or more facilities, notify in writing the Minister and the parents of the children attending the childcare centre or day care centre, inform the Minister of the number and age of the children receiving childcare, and comply with any other condition determined by regulation.

The permit is then modified or revoked, for any facility concerned, as of the date set out in the notice.”

23. The heading of Division IV of Chapter II of the Act is amended by inserting “DAY CARE CENTRE” before “PARENTS”.

24. The Act is amended by inserting the following sections after section 40:

“40.0.1. The Minister must ensure that the actions and practices of the coordinating offices accredited by the Minister are coherent.

To that end, the Minister may, by instruction, prescribe any procedure that a coordinating office must follow, any document it must use or any information it must provide.

“40.0.2. At least once a year, the Minister must conduct or commission a study, investigation or survey involving all the persons recognized as home educational childcare providers to establish their level of satisfaction with regard to the practices of their home educational childcare coordinating office. The Minister may require the coordinating offices to participate in the assessment of their services, to provide the required information and documents and to fill out an assessment questionnaire.”

25. Section 42 of the Act is amended

(1) by inserting “, in compliance with the instructions given by the Minister under the second paragraph of section 40.0.1” after “it” in the introductory clause;

(2) by inserting “or of subsidies referred to in the third paragraph of section 96” after “providers” in paragraph 5;

(3) by inserting the following paragraphs after paragraph 6:

“(6.1) to conduct prospecting in the territory assigned to it in order to find and guide persons who could be interested in becoming home educational childcare providers;

“(6.2) to promote home childcare as a method of providing educational childcare services;”.

26. Section 45 of the Act is amended by replacing “three” by “five”.

27. Section 46 of the Act is replaced by the following section:

“46. The Minister must publish and keep up to date, on the Minister’s department’s website, a list of all the accredited coordinating offices, indicating, for each office, the territory assigned to it and the term of the accreditation granted to it or renewed.”

28. Section 47 of the Act is amended by adding the following paragraph at the end:

“The Minister may also, on the Minister’s initiative, during the term of an accreditation, modify the accreditation to increase or decrease the number of spaces determined under section 44. In the case of a decrease, the terms set out in section 93.0.7 apply.”

29. The Act is amended by inserting the following subdivision after section 51:

“§4. — *Cessation of operations*

“**51.1.** A coordinating office must, at least 90 days before ceasing to operate, notify in writing the Minister and the home educational childcare providers recognized by it and comply with any other condition determined by regulation.

It must send a copy of the register referred to in section 59 to the Minister with that notice.

It must also, within 10 days of the Minister’s request, send the records it has established under this Act or the regulations as well as any modification made to the register referred to in the second paragraph to the Minister or to any person designated by the Minister.

The second and third paragraphs apply, with the necessary modifications, to a coordinating office whose accreditation is not renewed or is revoked by the Minister.”

30. Section 52 of the Act is amended

(1) by replacing “may” in the portion following paragraph 2 by “must, unless the person meets the conditions prescribed in subparagraph 1 of the second paragraph of section 6,”;

(2) by inserting “, other than a day care centre permit holder,” after “natural person” in the introductory clause;

(3) by replacing “six” in paragraph 2 by “nine”;

(4) by adding the following paragraph at the end:

“A person referred to in subparagraph 1 of the second paragraph of section 6 who looks after children referred to in that subparagraph elsewhere than at the children’s residence may, if the person so requests, be recognized by a coordinating office. In such a case, the person’s recognition is subject to the conditions prescribed by this Act and the regulations.”

31. Section 53 of the Act is repealed.

32. Section 53.1 of the Act is amended by replacing “sections 52 and 53” in the first paragraph by “section 52”.

33. Section 55 of the Act is amended by replacing “three-year” by “five-year”.

34. Section 57.1 of the Act is amended by inserting “a home educational childcare coordinating office acting within the scope of its functions or” after “except in the case of” in the third paragraph.

35. Chapter IV.1 of the Act is replaced by the following chapter:

“CHAPTER IV.1

“ACCESS TO EDUCATIONAL CHILDCARE SERVICES

“59.1. The Minister designates a person or body to establish and administer a single window for access to educational childcare services. The Minister may also establish it, administer it himself or herself or entrust its administration to a third party.

“59.2. All educational childcare providers must register with the single window according to the terms and conditions determined by government regulation.

“59.3. Despite section 59.2, educational childcare providers that provide services within an Aboriginal community are not required to register with the single window and are exempt from the application of sections 59.4, 59.6, 59.9, 59.10 and 59.12.

“59.4. The single window is a referral and matching tool intended to ensure an educational childcare service supply that meets the needs of parents and promotes equality of opportunity for children, while complying with admission criteria and the rank or ranks assigned to a child under this chapter.

Any rank assigned to a child may relate to a determined territory, an educational childcare provider or a category of educational childcare providers, or to a combination of those factors. In addition, depending on the admission requirements, criteria and priorities that may be determined under the third paragraph, and on the type of childcare services required, the rank assigned to a child is likely to vary and may be expressed in numbers, letters or categories.

The Government determines, by regulation, the terms and conditions for registering a child with the single window and for assigning one or more ranks to the child, as well as those for selecting, matching and referring a child registered with the single window. The Government also determines, by regulation, the requirements, criteria and priorities for admitting children to an educational childcare provider or category of educational childcare providers. The regulation must facilitate access to educational childcare services for children with special needs.

The Government may also determine, by regulation, the information and documents that must be provided to the Minister or the administrator of the single window by the educational childcare providers or the parents, in particular with regard to children’s admission, exclusion or attendance, or to the cessation of their attendance.

“59.5. For a child to receive educational childcare services provided by an educational childcare provider, other than a provider referred to in section 59.3, the child must be registered with the single window according to the terms and conditions determined by regulation.

“59.6. Educational childcare providers may not admit a child to their facility or to a home childcare service if the child is not already registered with the single window.

“59.7. Permit holders for childcare centres or day care centres delivering subsidized childcare must establish their admission policies in accordance with the requirements determined by regulation.

Children who live in precarious socio-economic situations must be given priority in the admission policies of educational childcare providers referred to in the first paragraph, to the extent and on the terms determined by regulation. To that end, the Minister may develop deprivation indexes or use existing indexes.

“59.8. Day care centres that do not provide subsidized childcare and recognized home educational childcare providers may, subject to section 59.6, admit the children of their choice according to the admission criteria they determine.

“59.9. When permit holders for childcare centres or day care centres delivering subsidized childcare intend to admit a child, they must first notify the single window administrator to obtain the referral of children from the administrator.

The referral of children via the single window and their matching with a permit holder referred to in the first paragraph must be done in accordance with the terms and conditions determined by regulation.

The referral and matching must also be done in such a way as to anticipate the measures that could be required to enable the integration of a child with special needs into a permit holder’s centre.

“59.10. All educational childcare providers must immediately inform the single window administrator when they admit a child.

“59.11. A parent may refuse to have their child admitted to a particular educational childcare provider.

“59.12. Permit holders for childcare centres or day care centres delivering subsidized childcare that refuse to admit a child who has been referred to them by the single window must notify the single window administrator and the parent of the refusal and inform the parent in writing of the reasons for the refusal.”

36. Section 78 of the Act is amended

(1) by replacing “statements to an inspector or refuse to provide an inspector with the information” in the first paragraph by “representations to an inspector or refuse to provide an inspector with the information or a document”;

(2) by replacing the second paragraph by the following paragraph:

“The person in charge of the premises being inspected and any other person present are required to assist the inspector. Likewise, the person holding information or having custody, possession or control of any document relating to the application of this Act must, at the inspector’s request, give the information or document to the inspector within a reasonable time and facilitate its examination.”

37. The Act is amended by inserting the following section after section 78:

“78.1. An inspector may, by a formal demand delivered by any means that allows proof of receipt, require any person to communicate, by the same means, within a reasonable time specified by the inspector, information or documents relating to the application of this Act.

The person to whom the demand is made must comply with the demand within the specified time, whether or not the person has already communicated such information or such a document or a reply to a similar demand made under this Act.”

38. Section 81 of the Act is amended by replacing “fax machine or any other electronic means, provided the intended recipient can be so reached” by “any means of communication that allows proof of receipt”.

39. The Act is amended by inserting the following sections after section 81:

“81.0.1. No person may hinder an investigator in the exercise of investigation functions, make misleading representations to an investigator or refuse to provide an investigator with the information or a document he or she has the right to obtain under this Act.

“81.0.2. An investigator may not be prosecuted for any act done in good faith in the exercise of investigation functions.”

40. Section 89 of the Act is amended by inserting the following paragraph after paragraph 1:

“(1.1) to an applicant for recognition as a home educational childcare provider, for the establishment of home childcare; or”.

41. Section 90 of the Act is amended by replacing the second paragraph by the following paragraphs:

“Such childcare is intended for children referred to in the first paragraph of section 2.

Home educational childcare providers may not receive a subsidy for the childcare they provide, within their childcare operation, to their own children or to children who ordinarily live with them. Nor may they receive a subsidy for childcare provided to their assistants’ children or to children who ordinarily live with their assistants, if the services are provided at the children’s residence.”

42. Section 91 of the Act is amended by replacing “likewise” by “, according to the conditions and priorities the Minister determines,”.

43. Section 93 of the Act is replaced by the following sections:

“93. The total number of subsidized childcare spaces corresponds to the total number of spaces authorized under the permits for all childcare centres and daycare centres that have entered into a subsidy agreement with the Minister as well as under the accreditations of all the home educational childcare coordinating offices.

“93.0.1. When the Minister intends to assign new subsidized childcare spaces to permit applicants or permit holders, the Minister issues an invitation to submit a project to create such spaces for part or all of Québec.

Such an invitation is first addressed to childcare centre permit applicants or permit holders. If no project is submitted by them or is selected, the invitation may then be addressed to any other permit applicant or permit holder.

The invitation sets out the terms and conditions the project must comply with and the categories of permit applicants or permit holders for which the invitation is intended, if applicable. It may also specify the participation of the Minister in the financing or planning of the construction project as well as that of any person designated by the Minister, in particular in the planning, management or control of the development or construction project or in the supply of a facility.

Following the invitation, the Minister selects one or more projects from among those that meet the conditions of the invitation and then allocates the places among the permit applicants or permit holders whose project has been selected.

Before allocating spaces within an Aboriginal community, the Minister consults the community concerned or, if applicable, the person or body designated by the community to represent it in such matters.

“93.0.2. When the Minister intends to assign new subsidized childcare spaces to a home educational childcare coordinating office for it to distribute the spaces, the Minister modifies the coordinating office’s accreditation in accordance with subdivision 2 of Division I of Chapter III of the Act.

“93.0.3. The Minister must take measures to ensure that the educational childcare service supply in each territory meets the demand for such services. Accordingly, when the Minister finds, at the conclusion of the process set out in section 11.2, that the Minister’s projected service supply in a given territory does not meet the demand, the Minister issues, within six months of that finding, an invitation in accordance with section 93.0.1.

“93.0.4. Where the subsidized childcare spaces assigned to a permit applicant or a permit holder are not made available within the time determined by the Minister, the Minister may recover the spaces in order to reallocate or cancel them.

The same is true where such a childcare space becomes unoccupied otherwise than in the situation provided for in section 93.0.8.

Before recovering or cancelling childcare spaces in accordance with this section, the Minister must notify the permit applicant or permit holder in writing and give the applicant or holder at least 15 days to submit observations. The Minister’s decision, with reasons, is then communicated in writing.

“93.0.5. Where a permit applicant or permit holder delays or neglects, or experiences significant difficulties in, completing construction or development work for which subsidies have been granted, the Minister may, in addition to any other action the Minister may take or any right the Minister may have, propose the participation of any person designated by the Minister in order to complete the required work.

“93.0.6. A coordinating office may reallocate a childcare space assigned to a home educational childcare provider if it becomes unoccupied.

“93.0.7. Where a home coordinating office fails to make available the childcare spaces that have been allocated to it, the Minister may recover those spaces in order to reallocate them in accordance with section 93.0.1 or section 93.0.2 or to cancel them.

(1) with regard to a permit holder, as of the time all permit holders have been assessed at least once, regardless of the date of the assessment; and

(2) with regard to a home educational childcare provider, as of the time all home educational childcare providers have been assessed at least once, regardless of the date of the assessment.

Permit holders and home educational childcare providers whose permit or recognition was obtained in the year preceding the date of the first publication by the Minister are not taken into account in determining that date.

100. From 1 September 2022 until 1 September 2026, sections 6.1, 6.2 and 113.4 of the Educational Childcare Act do not apply to a person referred to in subparagraph 1 of the second paragraph of section 6 of that Act, as enacted by section 6.

102. Section 93.0.5 of the Educational Childcare Act, enacted by section 43, applies, with the necessary modifications, to a project involving construction or development work for which subsidies were granted to the permit applicant or permit holder before 1 September 2022.

From 12 April 2022 until 1 September 2022 and despite any provision to the contrary, an educational childcare service supply advisory committee established under section 103.5 of the Educational Childcare Act retains competence only with regard to permit applications for day care centres that do not provide subsidized childcare filed before 12 April 2022. Any application received by the Minister before that date and not yet decided by the committee must be analyzed by the committee concerned, which must produce its recommendations not later than 1 September 2022.

All permit applications for day care centres that do not provide subsidized childcare filed between 12 April 2022 and 1 September 2022 are suspended. At the end of that period, those applications must be analyzed in accordance with the Educational Childcare Act, as it reads as of 1 September 2022.

For the purposes of section 103.7 of the Educational Childcare Act, as amended by section 53, the term of a member referred to in the first or second paragraph is deemed to start on 1 September 2022. The term of any other member ends on that date.

The same applies with respect to the person's obligation to comply with paragraph 9 of section 60 of the Regulation and to the obligation to comply with sections 5 and 57.1 of the Educational Childcare Act.

However, to maintain recognition, the person must, not later than 12 months after obtaining the recognition, successfully complete the training referred to in the first paragraph and send the documents establishing completion to the coordinating office and, not later later than 24 months after recognition, send the coordinating office his or her educational program and implement it as well as comply with section 57.1 of the Educational Childcare Act.

In addition, on receiving the documents sent under this section, the coordinating office applies sections 61 and 62 of the Educational Childcare Regulation, with the necessary modifications.

106. If the expiry date of the recognition of a home educational childcare provider is later than 11 April 2022, it is postponed to two years from the date appearing in the notice of acceptance referred to in section 62 of the Educational Childcare Regulation that was issued to the home educational childcare provider.

107. The Government may, by a regulation made before 12 April 2024, enact any other transitional provision or measure useful for carrying out this Act.

A regulation made under the first paragraph is not subject to the publication requirement set out in section 8 of the Regulations Act (chapter R-18.1) or to the date of coming into force set out in section 17 of that Act.

Such a regulation may also, if it so provides, apply from any date not prior to 12 April 2022.
